This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTE

This little compilation has been made entirely for the purpose of recording and perpetuating the names of the descendants of my great-grandfather, Richardson Sands, whose direct descent I have traced from James Sands, the first immigrant and the ancestor, I believe, of all the people in the United States of English descent bearing the name of Sands. While there is every reason to believe that James Sands was a grandson of Edwin Sandys, Archbishop of York (born in 1516; died July 10, 1588), there is not sufficient evidence to justify the claim of this descent.

I have added an appendix, containing the direct paternal genealogies of the wives of my direct ancestors to James Sands.

The Island was divided into sixteen shares, his share being one-sixteenth. In March, 1663–4, he was constable on Block Island. He commanded a militia company in King Philip's war; in 1665, he was deputy from Block Island to the General Assembly; he was largely concerned in settling the township, and was one of the foremost who petitioned the Gen-

eral Assembly for a charter of incorporation, which was obtained in 1672, under the name of New Shoreham; in October 1670, and September 1671, he was tax rater on Block Island; in 1676, he was assistant warden. There is a deed, James Sands to John Sands, dated November 15, 1690, recorded in the Hempstead New Book of Record, on pp. 345–6, by Thos. Gildersleeve, Clerk, of the land upon which he settled when he first came to Block Island. He was buried in the public graveyard; the stone over his remains, a large recumbent sandstone slab, still in a good state of preservation, bears the following inscription:

His son, John (who married Elizabeth Cornell in 1736) occupied the farm that he left. His wife's remains and his own were interred side by side in the family burying ground, which he devised to the Sands family by will in the following terms:

In 1777, he married Lucretia Ledyard at Hartford; in 1778, he removed to Philadelphia, and settled in business there. He was a trusted confidential agent of the Hartford Committee of Safety, and from the commencement of the war until its close, he and his brothers, Comfort and Captain Joshua, rendered valuable assistance to Washington and his Army, by frequently furnishing necessary supplies when there could be little hope of compensation, and more particularly in joining with Robert Morris, of Philadelphia, and Mr. Livingston, of New Jersey, in agreeing to furnish Washington with supplies for the year 1782, which nearly exhausted the fortunes of Robert Morris and the Sands brothers. No compensation was asked by these patriotic men. They all played an important part in the gaining of American independence, each having had a price set upon his head by the British.
